

November, 2011

Dear Prospect Sierra Families:

Enclosed please find information regarding our **Tuition Support Program**. Please keep the goals and policies of this program in mind as you submit your application:

- The **Tuition Support Program** is designed to make Prospect Sierra School accessible for families that would otherwise find it difficult to send their children here.
- The **Tuition Support Program** is designed to assist families who have no other sources of financial assistance. A typical scenario would be a family with two working parents who earn income, but have limited assets or other sources of financial stability and strength.
- Prospect Sierra School believes that families should contribute equally to tuition at all their children's schools to the extent a family is able to do so. If you pay tuition for another child at another school or college, we believe you should pay at least an equivalent amount for your child at Prospect Sierra School.

We hope that we have clearly communicated the rationale for the **Tuition Support Program**. Please make sure your application and documentation are complete and turned in with your enrollment agreement. We cannot guarantee a discount will be awarded, as funds are limited. As always, please feel free to contact me at (510) 527-4714, ext. 226 or [peggy@prospectsierra.org](mailto:peggy@prospectsierra.org)
